

Center for Security Studies

Resources Team

The Resources Team is responsible for 1) selecting and posting the daily analyses and publications provided on the CSS website's Resources Page; 2) choosing and posting a daily CSS blog; 3) maintaining and adding to the CSS' Digital Library; 4) operating CSS' social media platforms, and 5) providing helpful resources for researchers and students alike, including a worldwide roster of international relations and security organizations, assorted datasets and CSS-provided charts, graphics and visualizations.

Michael Woods oversees the general operations of the Resources portion of the CSS Website and is also responsible for the Center's social media activities. He previously worked as a Multimedia Library Coordinator at the International Relations and Security Network (ISN).
